POWDER HANDLING & PROCESSING TECHNOLOGY

Bag Emptying Machine

Effortless Bag Emptying With Our Automatic Bag Slitter

Engineered to handle diverse array of bag sizes and materials, our Automatic Bag Slitting Machine stands as the ultimate solution for effortlessly cutting and emptying single or multiple layer bags. With a focus on efficiency and reliability, It features a high efficiency cutter with exceptional durability, and minimal down-time through easy maintenance. Our comprehensive system encompasses a robust heavy-duty cutter, rotating screen, belt conveyor, dust collector to prevent dusting, empty bag compactor, and powder discharge screw conveyor. Experience seamless bag handling and cutting with **Rieco's Robust and Reliable Bag Slitter.**

BENEFITS

Optimum price performance ratio

Suitable for various bag materials and sizes

Low energy consumption

Simple, compact solution suitable for multiple system configurations

Technical support and worldwide availability of spare parts

Safe work environment as operator does not come in contact with material handled

TECHNICAL FEATURES

- Handling powders and granules
- Minimum material retention
- Less human intervention
- Dust proof environment
- Can be designed for various capacity requirements by optimising the bag input rate
- High efficiency cutter ensures cleanly cut bags
- Easy handling of empty bags with bag compactor
- Human safety interlock
- Smooth bag discharge without jamming
- Fully balanced tromel leading to low machine vibrations
- More bag holding time in the tromel for better material discharge
- Can be supplied in MS, SS 304/SS 316 depending upon application
- Overall Size (L X W X H)
4.5 Mtrs X 1.75 Mtrs X 3.5 Mtrs

APPLICATIONS

Paints

Cement

Pharma

Food

Chemicals
